

Announcement of PhD Scholarship Recipient

Project Title: MORPhyN: Modelling, Optimisation and Routing using Physiological Networks

Program: Doctor of Philosophy in Mathematics (International Program)

Institution: Mahidol University

Academic Year: 2025

The project MORPhyN: Modelling, Optimisation and Routing using Physiological Networks, supported by the Swiss National Science Foundation, is pleased to announce the awarding of a scholarship for the Doctor of Philosophy in Mathematics (International Program) at Mahidol University, under the supervision of Assistant Professor Tipaluck Krityakierne and Assistant Professor Wasakorn Laesanklang.

Following the completion of the selection process, the principal investigator is delighted to announce that

Miss Chanoknun Phunnasorn

has been awarded a full scholarship for the PhD program. The scholarship includes full tuition coverage at Mahidol University, monthly stipends in Thailand, and travel research grants to support up to 12 months of research at the Idiap Research Institute, Switzerland, under the supervision of Dr. Philip Garner, leader of the Audio Inference Group.

Announced on May 20, 2025

Tipaluck Krityakierne

(Assistant Professor Tipaluck Krityakierne)

Principal Investigator
